# ANNUAL REPORT

of

**THE MEDICAL OFFICER OF HEALTH**

**for the year ended 31st December, 1956.**

Public Health Department,

6 Market Place,

Macclesfield.

November, 1957.

TO THE MAYOR, ALDERMEN AND COUNCILLORS OF  
THE BOROUGH OF MACCLESFIELD

Ladies and Gentlemen,

I have pleasure in presenting my report on the health of the Borough for the year ended 31st December, 1956.

There is again a small increase in the Estimate of population given by the Registrar General and an increase in the number of Births. Deaths, however, continue to exceed births.

Infant deaths are only half those of last year, seven of which were due to injury at birth, prematurity or congenital malformations.

The year was remarkable for two outbreaks of Infectious Disease. On Sunday, 13th May, Scarlet Fever was notified at a farm, and four children removed immediately to the Isolation Hospital. Besides the milk produced and bottled on the farm, some was brought in bulk to the farm for bottling, and a smaller amount was taken already bottled from another dairy. Lists of customers showed a population at risk of about 3,500 while an even more alarming feature was the fact that two of the immediate contacts worked in two of the biggest dairies in the District. Swabs were taken from the throats of all immediate contacts, the two who worked in other dairies were suspended from work as were all others with clinically 'doubtful' throats. Bottling on the farm was stopped and all milk sent for Pasteurisation. School and other

remoter contacts were rounded up next day and ultimately a total of 18 including two adults were admitted to the Isolation Hospital. No other cases developed.

The other outbreak was of Poliomyelitis which began on May 15th with a posthumous notification. In all, 24 cases occurred in the Borough; 2 in Bollington and 4 in the Rural District, one of which died.

The last case in the Borough was notified on July 16th but two severely paralysed cases occurred in the Rural District on the 20th and 31st August. In neither of these cases could any contact with Macclesfield be established and it may well be that their infection was part of the Manchester outbreak. It is with gratitude that I mention the help given by Dr. Bird and his staff at the West Park Hospital Laboratory and also the part played by the local newspapers when Macclesfield became "Polio Town" to the National Press. The willing co-operation given by the organisers of entertainments of all kinds and the steadfast refusal of the public to panic were heartening features of the affair.

There is virtually no progress to record in Slum Clearance. When it became apparent that building for purposes of re-housing was to cease, greater endeavours were made to interest the Council in acquiring property for "deferred demolition." In this way it was suggested that the Council could buy both time and land for subsequent Central development. This solution too has so far failed to find favour.

It gives me pleasure to acknowledge the understanding and help given by the Chairman and members of the Health Committee and the co-operation of my own staff and that of other Corporation Departments.

I have the honour to be,

Ladies and Gentlemen,

Your obedient servant,

H. R. DUGDALE.

## GENERAL STATISTICS FOR 1956

Areas of Borough	....	....	....	....	....	4,640 acres
Population (Census 1951)	....	....	....	....	....	35,999
Population (Estimated by Registrar General, 1955)						36,330
Number of inhabited houses (Census 1951)	....	....				11,441
Number of inhabited houses (end of 1956) estimated						12,575
Rateable Value, March, 1956	....	....	....	....	....	£235,010
Product of a Penny Rate	....	....	....	....	....	£908/6/7

		Male	Female	Total
Live Births: Legitimate	....	246	243	489
Illegitimate	....	14	15	29
		—	—	—
		260	258	518
		—	—	—

Still Births—12.	Rate per 1,000 total births	....	....	22.64
Deaths—527.	Death Rate (Crude)	....	....	14.50
Percentage of deaths occurring in Public Institutions				47.05

The total numbers of live births and of deaths of residents in the Borough during 1956 were 518 and 527 respectively. These figures show an excess of deaths over births of 9. In 1955 there was an excess of deaths over births of 72.

**The Birth Rate** of 14.58 is higher by 1.84 than for 1955.

**The Death Rate** of 14.50 shows a decrease of 0.23 compared with the rate for 1955.

Number of women who died in, or in consequence of child birth:—

From Sepsis	....	....	....	....	....	0
From other causes	....	....	....	....	....	0

Death rate of infants under one year of age per 1,000 live births:—

Legitimate	....	....	....	....	....	15.44
Illegitimate	....	....	....	....	....	0.00
Total	....	....	....	....	....	15.44

### **Infant Deaths**

Of the 8 infant deaths, 3 occurred in males, and 5 in females.

## **Infantile Mortality**

While the general death rate shows a decrease, the Infant Mortality Rate of 15.44 per 1,000 live births, shows a decrease of 19.19 over 1955.

8 deaths occurred during 1956. 4 are accounted for by Prematurity and 4 other causes.

Of the 8 infant deaths none were illegitimate.

Table I shows the ages and causes of death.

## **Neo-Natal Death Rate**

The number of infant deaths during the first four weeks of life was 6 as compared with 8 in 1955. This makes the death rate per 1,000 live births 11.58, a decrease of 5.73 over 1955.

## **TUBERCULOSIS**

Cases notified in 1956:

Pulmonary .... ....	23
Non-Pulmonary .... ....	1

Cases notified in 1955.

Pulmonary .... ....	13
Non-Pulmonary .... ....	3

Number of deaths in 1956:

Pulmonary .... ....	7
Non-Pulmonary .... ....	3

Number of deaths in 1955:

Pulmonary .... ....	6
Non-Pulmonary .... ....	3

Table I.

## CAUSES OF INFANT DEATHS, 1956, at different age periods under 1 year.

The following table shows the cases notified and the deaths from Tuberculosis during the year in the two sexes and classified in age groups:—

Table III

Age Periods	New Cases				Deaths			
	Non-Pulmonary		Pulmonary	Pulmonary	Non-Pulmonary		Pulmonary	Pulmonary
	M.	F.	M.	F.	M.	F.	M.	F.
Under 1 year ...	—	—	—	—	—	—	—	—
1 to 5 years ...	—	—	—	—	—	—	—	—
5 to 10 years ...	—	—	—	—	—	—	—	—
10 to 15 years ...	—	—	—	—	—	—	—	—
15 to 20 years ...	1	2	—	—	—	—	—	—
20 to 35 years ...	6	8	—	1	—	1	1	—
35 to 45 years ...	2	—	—	—	3	—	1	—
45 to 65 years ...	3	1	—	—	1	—	1	—
65 yrs. & upw'ds.	—	—	—	—	2	—	—	—
TOTALS ...	12	11	—	1	6	1	3	—

The regulations respecting notifications have been satisfactorily observed.

During the year there has been no need for action to be taken under the Public Health (Prevention of Tuberculosis) Regulation, 1925, nor Section 172 of the Public Health Act, 1936.

## **PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES**

### **Scarlet Fever**

During the year 1956, 33 cases of Scarlet Fever were notified and 24 cases were removed to the Isolation Hospital. In 1955, 33 cases were notified and 16 removed to the Isolation Hospital.

### **Diphtheria**

During 1956 no notifications of Diphtheria were received.

### **Immunization**

Since 1939 when immunization on a general scale against Diphtheria was adopted in Macclesfield, 11,835 children have been inoculated. Analysis shews that at the 31st December, 1956, there have been treated 1,372 children of pre-school age and 4,259 belonging to the 5—15 age group, the remaining 6,204 being over 15 years.

These figures are shewn in tabular form (see Table V) according to the various age groups for 1939 onwards. Thus the figures for those children 0—5 are shewn for each year to the right of the top thick line, while those of schoolchildren 5—15 years are given between the two thick lines, those below the lower left line being over 15 at the date mentioned. Adjustments have been made in reaching the final figures for those children of 4 plus, who during the year continue to pass from the pre-school to the school group, and also for those of 14 plus, who have reached their fifteenth birthday, and are therefore excluded from the 5—15 school group.

### **Enteric Fever**

No cases of Typhoid Fever were notified during the year.

### **Puerperal Pyrexia**

20 cases of Puerperal Pyrexia were notified during the year, all from West Park Hospital.

### **Ophthalmia Neonatorum**

No cases of Ophthalmia Neonatorum were notified during the year.

## **Erysipelas**

3 cases of Erysipelas were notified.

## **Dysentery**

One case of Dysentery was notified in the Borough. Last year 5 notifications were received.

## **Acute Pneumonia**

During the year 19 cases of this disease were notified. The total for 1955 was also 19 cases.

## **Measles**

101 cases of this disease were notified, compared with 447 last year.

## **Whooping Cough**

49 cases of this disease were notified, compared with 95 last year.

## **Tuberculosis**

23 cases of Pulmonary and 1 case of Non-Pulmonary Tuberculosis were notified, compared with 13 Pulmonary and 3 Non-Pulmonary, a total of 16 last year.

All these cases received Sanatorium or Hospital treatment.

## **Poliomyelitis**

24 cases of this disease were notified during the year and 18 were admitted to Hospital. One death occurred.

## **Food Poisoning**

2 cases of this disease were notified.

## **Scabies**

Hurdsfield House Treatment Centre continued to be used as the treatment centre for cases of scabies, but no treatments were given during the year.

1956/57	....	70	....	44	60	....

## SECTION 29—DOMESTIC HELP.

In an effort to keep expenditure at a reasonable level very severe curtailment of the hours worked for individual cases has been necessary. This has, however, thrown considerable extra strain on the home helps who have been required to attend several cases daily and is, in my opinion, reflected by the increased sickness rate among them during the latter part of the year.

The number of Domestic Helps on the Register at 31st December, 1956, and the total number of hours worked during the year: —

	Macclesfield	Bollington	Total No. of hours worked during 1956.

## EXAMINATION OF MILK—1956

---

During the year, 13 samples of milk were submitted for examination as to their Cleanliness and Keeping Quality.

1. **Accredited Milk.** No samples of accredited milk were examined.

2. **Pasteurised and Sterilised Milk.** 5 samples of such milk were examined and proved to be of wholesome character, and passed the required standard.

3. **Undesignated Milk.** Of 4 samples examined all were satisfactory from the point of view of cleanliness or keeping quality.

4. **Tuberculin Tested Milk.** 4 samples were taken, all of which passed the required standard.

---

## THE TOWN'S WATER SUPPLY

1. The water supply of the area has been satisfactory in quality, but to maintain a sufficient quantity it was necessary to supplement supplies by pumping from a river outside the catchment area during January and February, July and part of August.

2. The periodical bacteriological examinations of the raw and filtered water are made by the Borough Engineer, and periodical samples of water are taken and analysed by the Public Analyst, from the consumers' taps.

3. The water has no plumbo-solvent action.

4. No specific contamination has been identified but the Corporation has taken all possible steps to avoid pollution by acquiring control of the whole of the Gathering Grounds to Trentabank and Ridgegate Reservoirs.

5. With the exception of a few outlying houses and farms, above the level of the gravity supply, the whole of the dwelling houses within the Borough are supplied direct from public water mains. There are no standpipe supplies.

# CHIEF PUBLIC HEALTH INSPECTOR'S REPORT

6 Market Place,

Macclesfield.

To the Chairman and Members of the  
Health Committee.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting to you my annual report of the work of your Public Health Inspectors during the year 1956.

Two experienced members of my staff took up positions of increased responsibilities with other local authorities early in the Summer and it was not until early Autumn that two inspectors without their meat certificates were appointed. I am pleased to say that the essential work of the Department continued without interruption.

An important step for securing the cleaner handling of food came into operation during the year and the Royal Assent was given to what is probably the shortest Act on the Statute Book. This changed the title of Sanitary Inspectors to that of Public Health Inspectors, being one of the recommendations made by the Working Party investigating the recruitment, training and qualifications of sanitary inspectors.

## Inspections

1,006 complaints were investigated, of which 113 were unfounded and 7,371 visits of inspection were made to premises in the Borough for purposes appertaining to the Acts and Regulations administered by the Department.

Public Health and Housing Acts ....	....	....	....	....	5,172

11

### **Common Lodging Houses.**

At the end of March the last of the Common Lodging Houses was closed, this belonging to the Salvation Army and situated in Derby Street for the past forty-two years. The Salvation Army have always maintained the premises in a satisfactory manner and these were a good example of the standards required of such lodging houses. It is interesting to recall that the first Common Lodging House in the Borough was registered on the 18th August, 1856 for 20 lodgers in Derby Street.

### **Damage by Pests Act, 1949.**

One full-time Rodent Operator is engaged on the work of surveying premises for infestations of both rats and mice. Infestations discovered are treated by the modern techniques of pre-baiting and poisoning over a period, or the use of anti-coagulants in special circumstances. During the year there has been close co-operation between this Department and owners of business premises by means of regular inspections and treatments as required.

### **Infestations Found and Dealt with:—**

	Rats	Mice	Total
Local Authority Property ....	7	3	10
Private Dwellings ....	543	53	596
Business Premises ....	32	84	116
Totals ....	582	140	722

### **FOOD AND DRUGS ADMINISTRATION**

There are within the Borough 604 food premises composed of the following :—

Butchers	....	....	....	....	....	....	....	65
Cafes, Snack Bars	....	....	....	....	....	....	....	22
Bakehouses	....	....	....	....	....	....	....	31
Cake Shops	....	....	....	....	....	....	....	14
Fish, Fruit and Vegetable	....	....	....	....	....	....	....	8
Fish and Game	....	....	....	....	....	....	....	8
Fried Fish	....	....	....	....	....	....	....	30
Mixed Shops	....	....	....	....	....	....	....	220
Greengrocery and Fruit	....	....	....	....	....	....	....	35
Licensed Premises	....	....	....	....	....	....	....	171

The following premises are registered under section 16 of the Food and Drugs Act, 1955:—

Sale of Ice Cream	....	....	....	....	....	....	....	133
Manufacture of Ice Cream	....	....	....	....	....	....	....	3
Preservation of Food, etc.	....	....	....	....	....	....	....	76
Dairies (Milk and Dairies Regulations, 1949-54)	....	....	....	....	....	....	....	4

During the year the following visits were paid to registered premises:—

Sale of Ice Cream	....	....	....	....	....	....	....	10
Manufacture of Ice Cream	....	....	....	....	....	....	....	2
Preservation of Food	....	....	....	....	....	....	....	134

## FOOD INSPECTION

The following quantities of foodstuffs were condemned during the year and were disposed of by burying at the Corporation's controlled tip:—

655 tins Fruit	52 lbs. Prunes
295 tins Vegetables	144 jars Onions
90 tins Fish	9 tins Cream
40 lbs. Sausage	1670 Herrings
119 lbs. Boiled Ham	18 lbs. Pickled Beef
23 lbs. Bacon	1920 lbs. Damsons
20 tins Soup	240 lbs. Raisins
169 tins Milk	29 lbs. Sugar
429 tins Meat	4 lbs. Cake
453 lbs. Fish	

## MEAT INSPECTION

During 1956 the carcases of 13,110 animals were inspected at the two licensed slaughterhouses and once again I am able to record an improvement in the quality of cattle presented for inspection.

The co-operation of the Butchery trade with your inspectors has resulted in 100% inspection being carried out. Condemned meat is sent to Stockport for conversion into animal feeding-stuffs and fertilizers and is there under the control of the Chief Public Health Inspector of Stockport.

## **Ice Cream (Heat Treatment, etc.) Regulations, 1947-52**

There are three premises engaged in the small-scale manufacture of Ice Cream. Two are by the heat treatment process and one by a complete cold mix. Samples taken over a period have proved satisfactory.

## **Food Hygiene Regulations, 1955-56**

These regulations came into force on the 1st January, 1956, although the operation of some sections was suspended until 1st July, 1956. There can be no doubt that these regulations provide a better control over persons engaged in the handling of food than before.

The most marked improvement has been shown by market stall-holders, the display of food away from contamination having received particular attention.

An entirely new provision of the regulations has been the prohibition of smoking by food handlers. It was thought that this section would be the most difficult to implement but owing to the publicity the regulations received and the good sense of food handlers no enforcement action has so far been necessary.

## **REFUSE COLLECTION AND DISPOSAL**

During the year improvements to the method of refuse collection have been introduced.

An extra large-size trailer was purchased during January for the purpose of giving a set day (Monday) for the collection of all waste paper, fibreboard, etc., from the main shopping areas, and also to be used for the conveyance of the electric pedestrian-controlled vehicles when working on the boundaries and remote parts of the Borough (thus increasing the life of the batteries and conserving battery capacity for operating when fully laden). On Tuesdays, when refuse from the shopping area is collected, the minimum of delay and traffic congestion is now caused as the original delays caused by the collection of salvage have been abolished.

A new Shelvoke & Drewry Fore and Aft Tipping Vehicle of large capacity was purchased in July and after having relieved other vehicles in rotation for thorough servicing was allocated to a newly-formed ash round, in September. With the introduction of a fourth round, the nine to ten days' frequency of collection has been reduced to a weekly service and all householders may now expect the ashmen to call on a set day of the week. The introduction of a weekly collection has resulted in a notable decrease in the number of complaints received, these now being more in the nature of requests for special collections, which are dealt with by the General Purpose Vehicle.

The vehicles in the Cleansing Department consist of the following :—

	Purchased.
1. Side Loading Refuse Collector— Dennis H.M.B.314.	October, 1945
2. Sweeper Collector— Thornycroft Lewin J.L.G.55.	July, 1946
3. Street Gully Emptier— Dennis J.T.U.428.	September, 1947
4. Side Loading Refuse Collector— Dennis L.L.G.345.	December, 1948
5. Rear Loading Refuse Collector— Dennis "Paxit" M.M.A.518.	March, 1950
6. Pedestrian Controlled Vehicle— N.M.B.453.	March, 1951
7. S. & D. Fore/Aft Tipper— N.M.B.960.	May, 1951
8. Muledozer— O.L.G.14.	October, 1951

9. Pedestrian Controlled Vehicle— July, 1952  
 P.L.G.943.
10. Fordson Van— July, 1952  
 O.T.U.567.
11. S. & D. Fore/Aft Tipper— June, 1955  
 V.M.A.32.
12. S. & D. Fore/Aft Tipper— July, 1956  
 X.T.U.88.

### **Salvage Collection and Disposal.**

The following table shows the materials salvaged and disposed of during the years 1955 and 1956:—

	1955			1956		
	Tons	Cwts.		Tons	Cwts.	
Waste Paper	....	....	....	519	2	....
Ferrous Metals	....	....	....	20	3	....
Non-Ferrous Metals	....	....	....	2	4	....
Textiles	....	....	....	12	5	....
Tyres	....	....	....	1	4	....
Total Value	....	....	....	£5,045		....
						£5,448

In conclusion, I would like to express my appreciation to the Chairman and Members of the Health Committee for their support and interest during the year; also to place on record their confidence in accepting my recommendation that Mr. K. W. Mapp be promoted to the position of Deputy Chief Inspector.

Mr. Mapp has already proved himself a conscientious and worthy officer of this Department.

I also express my thanks to the Borough Architect and Housing Manager for statistics appertaining to the work of their Departments.

I remain,

Your obedient Servant,

Wm. TURNER,

Chief Public Health Inspector  
 and Cleansing Superintendent.
